Quantity of Water,

Is Today's Issue

Not the Price,

Discussion at Tuesday night's uncil meeting raised the possibilof an increase in the water rates charged by Hope's municipal water & light plant.

According to The Star's news account Wednesday the city fathers learned it is the electric plant that makes the money and water plant that loses it. But that's hardly an original discovery-it's

in trying to raise municipal water sion. rates. The municipal plant is an integrated utility with no separa- \$620,186. tion of the electric and water operations, and as long as the combined net earnings hold at a satisfactory figure it will be indeed difand taxpayer see the necessity for raising the rate on water.

The real issue before Hope, moreer, isn't the price of water-it is the question of getting more water . . . a lot more.

Not only is the pumping of water from deep wells the most expensive way of getting it but the supply from that source is becoming increasingly limited. The water level is dropping all over America -65 feet in east Texas to cite a severe case.

Eventually we are going to have to arrange for a large and depen-dable surface-water supply. It would furnish cheaper water than we now have, but the capital investment would be tremendous.

Hope ought to be laying aside reserve funds for that purpose right now. If the present city administration isn't doing it this is no specific criticism, because neither did any city administration in other years. Nevertheless a warning is timely. We are getting to the point Paere a decision will have to be made.

Showdown

Continued from Page One

CIA Director Allen W. Dulles quickly issued a statement branding the charges "false".

A showdown on McCurthy's pow erest to investigate would ocme if he forced the issue of his right to nvestigate the CIA.

Dulles probably would resign if President Eisenhower permitted or the Senate insisted that his agents submit themselves to investigation. A formula might be worked out out it is not likely. The Senate would not be likely under these circumstances, to support McCarhy's wish to question CIA agents There already is some talk on Capitol Hill of curbing the senaor's, powers, perhaps by giving only the subcommittee, rather than the chairman, the authority to determine who and what shall be in vestigated, and when. There have peen reports of bi-partisan plans. also, to deprive McCarthy of his nvestigating committee chairman ships. That would hurt the Senate's seniority rule, and therefore s not likely to get far.

Courtship and marriage this June month of weddings is far easier in many ways than it was in colonial times.

In Maryland, for e xample, I understand that bachelors, light wines and billiard tables are no longer bracketed together for tax purposes to pay the cost of the war against le French and Indians, as they were in 1756.

Girls, even those rascally girls who lead a man on with false promise or wealth, have it easier today. Men who had been "shabbed" their word for jilted— in colonial days didn't hesitate to bring a breach of promise suit.
